

Case Study: Healthcare

Dexian Successfully Supports PMO Center of Excellence Build-Out

©Dexian, LLC, 2023 | 4316522316

Challenge

The client was looking to build out their PMO Center of Excellence within a 2-year timeframe while phasing out all manual processes in an effort to scale with the company's high growth rate.

CLIENT:

Offers a new approach to connect Payers and Providers while providing industry leading software, process and data analytics to their clients.

PLACEMENTS

60+

Consultants

Solution

Dexian was able to source 60+ qualified consultants who worked on managing new business processes and systems, outsourcing services, process reengineering and prioritizing workstreams.

SKILL SETS

- Business Process Analyst
- Claims Processor
- Customer Service Associate
- Exchange Administrator & Engineer
- Mid-Level Systems Administrator
- NetSuite Admin & Developer
- Office 365 Engineer

Outcome

Over the course of 2 years, the recruiting teams effectively sourced consultants with various skill sets to meet the client's needs on a continuous basis. After the contract was completed, the client hired almost all consultants as full-time employees.

- Principal Data Engineer
- Principal SQL DBA
- Product Owner
- Project Manager
- Sr. Scrum Master
- Software Engineer
- Sr. .NET Developer & Engineer
- Sr. QA Engineer
